## Generations to come

The Holocaust  
A Horrible thing  
From the brink of death to the joy of escaping  
It all Changes in 1933  
Dachau  
The first of them all  
It started the reaction  
One showed up and then the others  
One to two to three then to thousands  
It's all real we can surely say  
It's a horrible action by humanity  
But the facts and the documents are not accepted by others  
Some think it's all fake  
Some Propaganda  
But we can't believe these people  
From the stories of the people who lost everything  
It's all true  
Deaths of Millions can't be made up  
How towns and villages disappear  
We can't say it's not real  
It's all real  
But to help Humanity  
We need to remember  
Not make the same mistakes again  
For in remembrance lies our fight  
To support the generations to come  
Let us not forget
